JOURNAL OF MOLECULAR LIQUIDS

VOL. 50 CONTENTS OCTOBER 1991

(Abstracted/indexed in: Chem. Abstr., Curr. Contents Phys. Chem. Earth Sci.)

Orientational–translational coupling for nematic–smetic-A tricritical point: a birefringence study
D.M. Potukuchi, N.V.S. Rao and V.G.K.M. Pisipati (Nagarjuna Nagar, India) 1
The breakdown of microscopic reversibility in a chiral ensemble in a time varying enantiomorphous influence: a computer simulation
M.W. Evans (Ithaca, NY, USA) 13
Complex formation constants of diastereomers by NMR self diffusion measurements
M. Geringer, R. Dworczak and H. Sterk (Graz, Austria) 21
Dielectric dispersion and relaxation mechanism of associative + non-associative (rigid) polar molecules at microwave frequencies
A.D. Vyas and V.M. Vashisth (Ahmedabad, India) 27
Thermodynamic studies on the binary liquid mixtures containing furan derivatives: furfural + aliphatic ketones
H. Naorem and S.K. Suri (New Delhi, India) 39
Relaxation time of several N-alcohol/cyclohexane systems
C. Magallanes (San Luis, Argentina) 53
Reorientational dynamics and internal rotation in $W(PMe_3)(CO)_5$
S.P. Wang and M. Schwartz (Denton, TX, USA) 61
Modelling of dipole monolayers as cellular arrays
S. Cincotti, M. Parodi and M. Chiabrera (Genoa, Italy) 73
Analysis of the dielectric, volumetric and association properties of L-methionine in aqueous solution
S. Brandan, L.M. Cordoba and M.A. Acuña Molina (Tucuman, Argentina) 93
Birefringence and electric dipole moment relationship with temperature, weak magnetic field and molecular geometry of 6CB and 7CB
M.C. López Iglesias and M. Barón (Buenos Aires, Argentina) 107
Kerr effect studies in acetonitrile–aromatic hydrocarbon systems
J. Philip and T.A. Prasada Rao (Madras, India) 115
Fast dynamic Kerr effect measurements: II. Effect of the light path
D. Bourret (Montpellier, France) 125
Fast dynamic Kerr effect measurements: III. Device
D. Bourret and J. Vigo (Montpellier, France) 135
Dielectric relaxation spectra for *N,N*-dimethylacetamide–water mixtures using picosecond time domain reflectometry
S.M. Puranik, A.C. Kumbharkhane and S.C. Mehrotra (Aurangabad, India) 143
Molecular interactions in binary mixtures of DMSO–aromatic/aliphatic hydrocarbons
A.K. Das and B.L. Jha (Dhanbad, India) 155
Free diffusion data in some polymer–solvent systems at 20°C
L. Ambrosone, C. Della Volpe, G. Guarino, R. Sartorio and V. Vitagliano (Naples, Italy) 187
H/D Isotope effects in aqueous solutions of $Ni(ClO_4)_2$, $Ni(CF_3SO_3)_2$ and $Mg(ClO_4)_2$ as studied by infrared spectroscopy
P.A. Bergström, J. Lindgren and O. Kristiansson (Uppsala, Sweden) 197
Kerr effect in binary liquid mixtures
J. Philip and T.A. Prasada Rao (Madras, India) 207
Transient Kerr effect in nematic liquid crystal mixtures
J. Philip and T.A. Prasada Rao (Madras, India) 215
Book Review 225
